Font sizes are defined to be relative but in reality all browsers use fixed sizes. We go with the main stream. Here the regular example

Normal 1 2 3 4 5 6 7

The following is inside a <div style="font-size: 16pt">:

Normal smaller larger -4 -3 -2 -1 +2 +3 +4 +5

The following is inside an <h2>:

Normal smaller larger -4 -3 -2 -1 +2 +3 +4 +5
